

Dear Friend,

Fraternal greetings from Bro.Monson. This mail is to wish you a Merry Christmas and a Happy, Prosperous new year 2016. Let the New year be a year of good health and fulfillment for you. My special prayers for you will be for this purpose.

Regarding the project work here, lots of things are happening. 6 Centers of training in tailoring is going on in 6 different villages. Each batch takes around 3 to 4 months to complete the training. In each centre there is between 15 to 18 trainees and a trainer. People are very happy that they are getting a chance in skill training. Ornaments making and training is imparted to another group. In our only one computer learning centre there is rush for admissions. But we can take only up to 10 students in a batch due to infrastructure limitations. It is also difficult to get the computer teacher because of remoteness of the place.

We have started with mush room cultivation, and honey bee rearing. Very soon , may be in January we plan to impart training to the villagers in these so that they can enhance their monthly income. Our herbal plants are slowly coming up. It's a joy to see new shoots coming up. In the month of February , a training is planned in herbal medicine preparation.

All these things keeps me very busy. Apart from this we are following up with students who are doing their higher education and helping them financially where ever possible. Taking sick patients to hospitals and providing assistance to them also is part and parcel of our mission. As you know this is a beautiful mission.

Let God continue to bless you especially in the New Year.

Yours fraternally

Bro. Monson
